Kate Bos

Mechanical Engineering Student at Purdue University
West Lafayette, Indiana, United States

Summary

High motivated mechanical engineering student with strong foundation in business communications, calculus and physics excited to apply skills in an internship

Experience

Purdue Engineering Student Council
Industrial Roundtable Committee - Head of Public Relations
January 2025 - Present (1 year 7 months)
West Lafayette, Indiana, United States

Managed public relations for Purdue's Industrial Roundtable, a three-day career fair that attracts over 400 companies and 19,000 Purdue students to provide students with job opportunities. Oversaw communication strategy and outreach to enhance student and employer engagement.

Led Purdue Engineering Student Council's scholarship initiatives, including overseeing the Industrial Roundtable Merit Scholarship and launching the new Resilience Scholarship to recognize students overcoming adversity, benefitting 20+ students.

ARCO/Murray
Project Management Intern
May 2025 - August 2025 (4 months)
Chicago, Illinois, United States

Managed the early stages and buyout process for a multimillion-dollar construction project, coordinating subcontractor procurement and contract execution to align with project scope, budget, and schedule goals.

Fostered strong client relationships through consistent communication, participation in weekly meetings, and site visits to review progress and coordinate next steps.

Designed and delivered a capstone presentation on overhead cranes, equipping project managers with strategies for estimating, procurement, and installation, while highlighting industry history, market trends, technical specs, lead times, and operational considerations.

Air Force Research Laboratory

Air Force Research Laboratory Scholar

June 2023 - August 2023 (3 months)

Kirtland Air Force Base, New Mexico, United States

Interned in the Infrastructure Management Branch of AFRL which supports the air force and space force facilities needs. Led project using planning, programming, design, and construction skills.

This included the development of graphic studies in the areas of sustainable design (identifying and implementing energy cost strategies to existing facilities), facility remodeling projects, and facility condition inspections (ICI program).

Gurnee Park District

1 year 4 months

Pool Attendant

May 2022 - August 2022 (4 months)

Operated heavy machinery equipment in a safe and efficient manner

Promoted a healthy and safe environment in a pool setting

Inspected equipment to ensure proper functionality

Customer Care

May 2021 - August 2022 (1 year 4 months)

Anticipated client needs, servicing them with exquisite customer service at the same time as upholding a clean and healthy environment

Meticulously operated POS system transactions which include credit, cash, exchanges, returns and refunds to ensure correct cash flow

Supported opening and closing of each shift demonstrating management and punctuality

Education

Purdue University

Mechanical Engineering · (2024 - 2028)

Warren Township High School

High School Diploma · (August 2020 - May 2024)
