Summa Cum Laude

President's Award Program Scholar

2024 Illinois State Scholar

National African American
Recognition Award

C2 Scholar

Makayla Murrell

Chemical Engineering Undergrad Student at the University of Illinois
Urbana-Champaign
Naperville, Illinois, United States

Summary

I am a sophomore studying Chemical Engineering at the University of Illinois Urbana-Champaign exploring my interest in consumer goods, including areas like food science, product development, and materials science. I am looking for opportunities that will allow me to continue my technical experience and contribute to impactful projects in chemical engineering.

Experience

Asahi Kasei Bioprocess America, Inc.

Incoming Engineering Intern

April 2026 - Present (4 months)

Glenview, IL

Illinois Business Council

New Member

February 2026 - Present (6 months)

University of Illinois Urbana-Champaign

Illinois Track and Field Club Sprints Coach

July 2025 - Present (1 year 1 month)

Coach club athletes and compete in sprint events. Create training plans, lead warm-ups and workouts, coordinate practice schedules, monitor athlete progress, and foster an inclusive team environment

Xiao Su Research Group

Researcher

May 2025 - July 2025 (3 months)

University of Illinois, Urbana Champaign

Prepared resin formulation, conducted property testing and performance testing to analyze how CNT integration impacts conductivity and overall functionality. Delivered a formal presentation on the progress of our research.

Fermilab

Accelerator Directorate Engineering Intern

June 2023 - August 2023 (3 months)

Batavia, Illinois, United States

Engineered and optimized beamline models using transport programming to simulate particle trajectories and magnetic optics in accelerator systems. Researched accelerator physics and beamline components through technical papers. Delivered a formal presentation of beamline simulation results, highlighting key parameters and design considerations for accelerator operation

Exelon

Exelon and ComEd STEM Leadership Academy

August 2022 - August 2022 (1 month)

Illinois Institute of Technology

Created a thorough plan to design an innovative bicycle that would help further mitigate climate change and presented to professionals. Conversated and received advice from CEOs of STEM organizations. Experienced STEM from a real-world perspective and attended beneficial career workshops

University of Illinois Urbana-Champaign

UIUC CURIE Science and Engineering Program

July 2022 - July 2022 (1 month)

Participated in hands-on experiments to understand concepts such as reaction engineering, separations, and biomolecular structure & function. Developed an understanding of human protein functions and the physics of fluids through computer simulations. Enhanced problem-solving skills through engaging activities and learned about the current applications of chemical and biomolecular engineering

Education

University of Illinois Urbana-Champaign

Bachelor of Science in Chemical Engineering · (August 2024 - May 2028)

Metea Valley

· (August 2020 - May 2024)
