Summary

Helping you to build a Software-Business if you got an idea, but lack the time & team to get your idea off the ground. And yes, with guaranteed results.

If you're time-poor but determined to turn your software idea into reality, I can help you quickly validate your concept with paying customers—before you go all-in (did this for my own startups and 70+ Startups while building FounderBlocks). After that, you'll get a demo-version of your idea and can onboard your first customers.

What I can help you with:

- # Rapidly validate demand & willingness to pay
- # Launch an MVP in max. 12 weeks (no crazy 50-150k agency offers)
- # Generate your first revenue (10-30k€ MRR) to make your project self-sustaining
- # Gain clarity and confidence before you have to commit your time or major investments
- # Optionally, attract investors or sustainably scale your idea

You're a good fit if...

- 1## You got a promising new idea for a new software (only B2B)
- 2## You're worried about investing 50-250k into the project, without proof your idea works.
- 3## You're frustrated with traditional startup support (generic group sessions from accelerators), expensive agency offers, or DIY resources that lack personal guidance.
- 4## You value pragmatic, data-driven decisions, and prefer a clear, actionable roadmap over endless planning

If that sounds like you, let's chat—send me a message and we'll quickly see if it's a match and we got a free spot in our program.

Experience

FounderBlocks

Late Co-Founder

October 2020 - Present (5 years 10 months)

You're about to build a software business BUT want proof that your idea works before investing tons of time and money? Smart move! We can help you quickly validate your concept with real, paying customers—before you go all-in (as we did with >70 clients during the last years).

What you'll achieve:

- # Rapidly validate demand & willingness to pay
- # Launch an MVP in max. 12 weeks (no crazy 50-150k agency offers)
- # Generate your first revenue (10-30k€ MRR) to make your project self-sustaining
- # Gain clarity and confidence before committing your time or major investments
- # Optionally, attract investors or sustainably scale your idea

Octo Trust Family Office

Startup Investments & Beteiligungscontrolling

March 2023 - Present (3 years 5 months)

hypnu - Hypnose zum Einschlafen

Founder (exited)

April 2020 - October 2024 (4 years 7 months)

Mainz, Rheinland-Pfalz, Deutschland

Bootstrapped Hypnu to >100.000 Installs with less than 1k€ budget. Hypnu is the mental health app that's digitizing hypnotherapy. Grounded in research-backed hypnosis techniques, Hypnu is more than just an app; it's a pathway to better sleep and less anxiety. Our unique approach simplifies hypnosis, making it a quick, daily practice. With the guidance of expert hypnotists, users find themselves effortlessly easing into a restful state.

Achievements: Over 100,000 organic downloads with a stellar >4.5 average rating across the App and Play Store & multiple times Top 100 Charts in Germany, Austria, Switzerland.

QX-Quarterly Crossing

General Manager: Equity Lounge

May 2018 - January 2024 (5 years 9 months)

Frankfurt am Main, Hessen, Deutschland

Since our launch in 2014, we have been facilitating exclusive, semi-annual evening events that bring together Germany's hottest founders and top-tier investors. Since the inception of this format, it has been a game-change for our founders (who have successfully raised over €356 million in funding for their ventures), making every gathering a not-to-be-missed hotspot of innovation and investment.

InstaFreight

Founders Associate

April 2018 - August 2018 (5 months)

Berlin, Deutschland

Assisted the founder of this startup (240+ employees and € 75 million funding) by developing a pricing algorithm, establishing a Yield Management department and increasing the overall margin without negative impact on volume. Also turned one business area (30% revenue contribution) profitable within 3 months.

Sqorl GmbH

Co-Founder

January 2016 - May 2018 (2 years 5 months)

Minden

A friend and I were confident that we could predict U.S. sales trends that would hit Europe within three months. So we crafted an algorithm to test our theory, while preparing for our A-Level exams. This resulted in a booming e-commerce business with 11 employees, a portfolio of 2000+ products and distribution in all EU countries which we led during our studies at WHU. I was responsible for product development & growth. However, after two years of explosive growth, we faced liquidity challenges and had to make the tough decision to close down. Despite that, our foresight was spot on, validating our original hypothesis.

Brains Up

Co-Founder

July 2016 - May 2017 (11 months)

We utilized artificial intelligence to reduce teachers' workload and tested out concept in 2 schools with 2350 students. After interviewing 79 teachers we build and released the first prototype within a few weeks.

Promotionfabrik.de

Co-Founder (exited)

January 2013 - June 2016 (3 years 6 months)

Porta Westfalica

Nationwide artist-agency for corporate event entertainment, television, and movie production. Responsible for marketing & sales, introduced a new CRM system, a B2B sales strategy, and new compensation structure. Achievements: Accomplished 67% average annual revenue growth through execution of new B2B strategy, led a team of eight full-time employees, set up and optimized performance marketing campaigns. Sold my share in the business in 2016 to build startups.

Education

WHU – Otto Beisheim School of Management

Bachelor of Science - BS, International Management · (2017 - 2020)
