Viswanath Chandran

Head of IT Singapore Branch @ Crédit Agricole CIB | IT
Management, Leadership
Singapore

Summary

Crédit Agricole CIB benefits from over ten years of leadership in IT operations, risk management, and information security through the Head of IT for the Singapore Branch. The team oversees critical technology initiatives and ensures robust support for banking operations, including foreign exchange (FX) systems and technical infrastructure.

A collaborative approach to decision-making and a focus on effective communication have enabled the delivery of secure and efficient IT solutions. With a proven track record in banking technology, the mission is to align IT strategies with business goals, empowering the organization to thrive in a competitive financial landscape.
